HNSCICLOUD PCP TENDER RESULTS ANNOUNCEMENT CEREMONY

On the 2nd November 2016, the awards ceremony for the successful bidders of the [Helix Nebula Science Cloud](http://www.hnscicloud.eu/) (<http://www.hnscicloud.eu/>) tender (<http://www.hnscicloud.eu/>) (<http://www.hnscicloud.eu/>) is taking place in Lyon, France, at the [CC-IN2P3 \(CNRS\)](http://cc.in2p3.fr/?lang=en) (<http://cc.in2p3.fr/?lang=en>) premises, one of the main academic data centres in France and a procurer of the Helix Nebula Science Cloud (HNSciCloud).

This €5.3 million joint Pre-Commercial Procurement (PCP) tender, led by CERN, will establish a European hybrid cloud platform that will support high-performance, data-intensive scientific use-cases sponsored by 10 of Europe's leading public research organisations and co-funded by the European Commission.

A total of 28 multinational companies, SMEs and public research organisations from 12 countries submitted bids during the summer. The 4 selected consortia will be announced at the event and present their visions for the hybrid cloud platform.

This event marks the conclusion of the preparation of the pre-commercial procurement and will kick off the design phase where the four consortia compete to go through to the prototyping phase.
