# HNSciCloud Pre-Commercial Procurement Open Market Consultation event

For the creation of a competitive marketplace of innovative cloud services, the HNSciCloud Initiative will issue a public tender in 2016. Interested cloud service providers are invited to join the HNSciCloud Pre-Commercial Procurement Open Market Consultation event in March 2016.

CERN, Geneva, Switzerland

[Add to Calendar](#)

HNSciCloud is the recently launched European Pre-Commercial Procurement (PCP) activity co-funded by the European Commission Horizon 2020 Programme. It aims to create a competitive marketplace of innovative cloud services serving scientific users from a wide range of domains. The marketplace builds on a hybrid cloud platform including commercial cloud service providers, publicly funded e-infrastructures and buyers' in-house resources.
